

How to Print Your MIYO Products

There are two options for printing most of your resources; you may [print them yourself](#) or take them to a [print shop](#).

PRINT YOURSELF

11 X 17" POSTER

What you will need

- A color printer that can use tabloid size paper (11 X 17").
- We recommend using 32 lb. paper.

Steps

1. Go to File>Page Setup and make sure your printer is setup for tabloid size paper.
2. If you are using a color printer, make sure that color printing is enabled.
3. Go to File>Print and make sure "Page Scaling" is set to "None."
4. Print a test copy before printing multiple copies.

8.5 X 11" FLYER

What you will need

- A laser or inkjet printer, color or black-and-white (color is strongly recommended).
- 8.5 x 11" (letter-size) paper. Regular copy paper is fine, but special paper made just for color printing will give the best results. Such paper is readily available from office supply stores.
- We recommend using 32 lb. paper.

Steps

1. Open the PDF flyer file in Adobe Reader.
2. Go to File>Page Setup and make sure your printer is setup for letter size paper.
3. Go to File>Print and make sure "Page Scaling" is set to "None".
4. If you are using a color printer, make sure that color printing is enabled.
5. Print a test copy before printing multiple copies.

PRINT YOURSELF (continued)

8.5 X 5.5" INSERTS AND QUESTION CARDS

What you will need

- A laser or inkjet printer, color or black-and-white (color is strongly recommended).
- 8.5 X 11" (letter-sized paper. Regular copy paper is fine, but special paper made just for color printing will give the best results. Such paper is readily available from office supply store.
- We recommend using 32 lb. paper.

Steps

1. Open the PDF poster file in Adobe Reader.
2. Go to File>Page Setup and make sure your printer is setup for letter size paper.
3. Go to File>Print and make sure "Page Scaling" is set to "None".
4. If you are using a color printer, make sure that color printing is enabled.
5. Print a test copy before printing multiple copies.
6. Insert and Question Card dimensions: 8.5 X 5.5".
(Inserts and question cards will require cutting after printing.)

PRINT SHOP

11 X 17" POSTER

1. Save the PDF poster file on a cloud-based service, USB jump drive or a CD. (Note - The file size of the flyer may be too large to email.)
2. The flyer is set up to print easily at a print shop that has 11 X 17" printing capabilities (such as FedEx Office). Tell the person there you have a large-format color print job 11 inches by 17 inches in size.
3. We recommend you request the poster be printed on 32 lb. paper.

8.5 X 11" FLYER

1. Save the PDF flyer file on a cloud-based service, USB jump drive or a CD. (Note - The file size of the flyer may be too large to email.)
2. This flyer is set up to print easily at a print shop such as FedEx Office. Simply tell the person at the print shop you want color copies of a PDF file on letter size paper. This is the most economical way to get 200 or fewer flyer printed.
3. We recommend you request the poster be printed on 32 lb. paper.

8.5 X 5.5" INSERTS AND QUESTION CARDS

1. Save the PDF insert or question card file on a cloud-based service, USB jump drive or a CD. (Note - The file size of the flyer may be too large to email.)
2. Inserts and question cards are set up to print easily at a print shop (such as FedEx Office). Simply tell the person at the print shop you want color copies of the PDF file on 8.5 X 11" (letter-size) paper, 2 inserts or question cards to a page.
3. Insert and Question Cards dimensions: 8.5 X 5.5". Your print shop will cut your inserts and question cards after printing.
4. We recommend you request the poster be printed on 32 lb. paper.

8.5 X 5.5" POSTCARDS

1. Save the PDF postcard file on a cloud-based service, USB jump drive or a CD.
2. We recommend postcards be printed at a professional print shop. Postcards should be double-sided (duplexed) on 8.5 X 11 (letter-size) cardstock paper. Cardstock weight should be at least "80 lb. cover" (DO NOT use "80 lb. text").
3. Your print shop may be able to print two postcards to one page.
4. Postcard dimensions: 6 X 4.25". Your print shop will cut your postcards after printing.
